MODULAR PLASTIC DISPLAYS

BOOST POINT-OF-SALE VISIBILITY

Drive impulse sales with our retail-ready, stackable 3- or 4-shelf system. Tiers are configured to your product height for a tailored fit.

Displays are completely customizable with full-color print areas on the front, sides, and top header.

The durable, lightweight construction is molded, high-impact polystyrene for long-lasting use. Easy to transport and assemble, the displays ship flat-packed for convenient, and cost-effective delivery.

Assembles in Minutes, No Tools Required

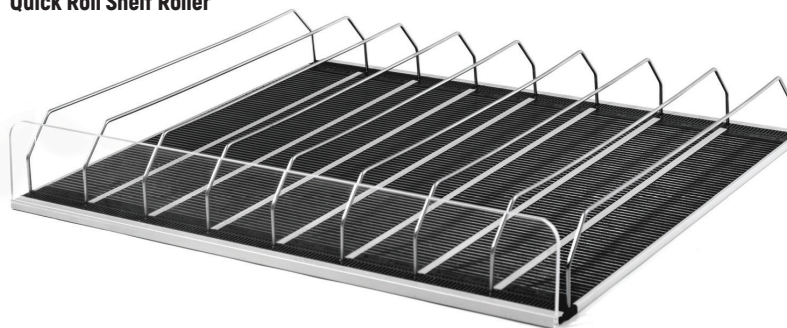

QUICK ROLL AND PROFLOW ROLLER SYSTEMS

The Quick Roll and ProFlow Shelf Roller Systems are two innovative solutions designed to enhance shelf organization and product accessibility through gravity-fed ball systems. Both offer customizable width and depth options to fit various size requirements, ensuring flexibility in different shelving environments.

Quick Roll Shelf Roller features fixed tracks and a one-piece acrylic front stopper, that can be used with risers on standard shelves. The customizable width/depth allows for various size requirements. Numerical jack alignment is required for attaching dividers, offering a precise and secure configuration.

ProFlow Shelf Roller offers detachable tracks and a flip-up front stopper, allowing for quick divider attachment. Its free-splicing capability enables easy width adjustments. Front and back rails provide stability and is designed specifically for use on refrigerator shelves, not compatible with risers.

Quick Roll Shelf Roller

Can be Used with a Riser and
Placed on Standard Shelves

ProFlow Shelf Roller

MAXIMIZE
YOUR RETAIL
EFFICIENCY

ROLLER AND SLIDER PUSHER

The Roller and Slider Pusher Shelf Systems are designed to optimize product display and inventory management in retail environments. Both offer adjustable width with three gear positions and customizable depths, allowing for flexible shelving configurations to suit various product sizes.

Roller Pusher Shelf Trays feature a double-row ball system that enables heavy or cylindrical bottled and canned drinks to slide forward effortlessly. This system helps promote first-in, first-out inventory management, with options for single- or double-bar dividers to organize products neatly. These robust trays are ideal for heavier items.

Slider Pusher Shelf Trays utilize a sliding plate base suited for lighter weight products. They also offer single- and double-bar divider options, providing a sleek and practical solution to smoothly manage lighter inventory on shelves.
